Steel **ONE-BOX**™ Fan/Fixture Box

Side-mounts to Joist for Secure Fan/Fixture Installation

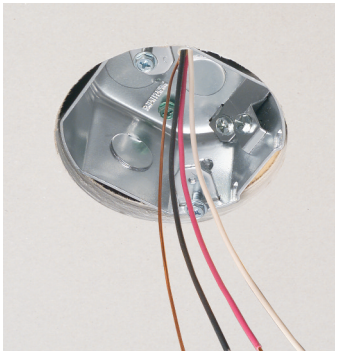

New Construction Installation

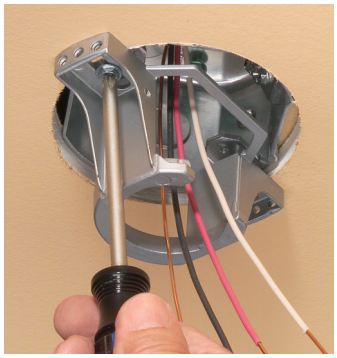

1 Mount box to side of joist using the captive screws supplied for this purpose.

2 Tabs for proper 1/2" positioning of box.

3 Push cable through installed NM cable connector. Install ceiling. Remove captive #10-32 screws for fan installation. Box is also tapped for #8-32 screws (not provided) for fixtures.

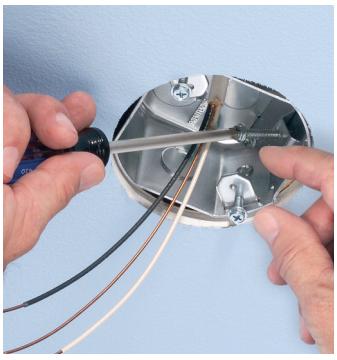

4 Paint (or finish) ceiling. Install fan mounting bracket through tapped holes (with the screws removed in #3).

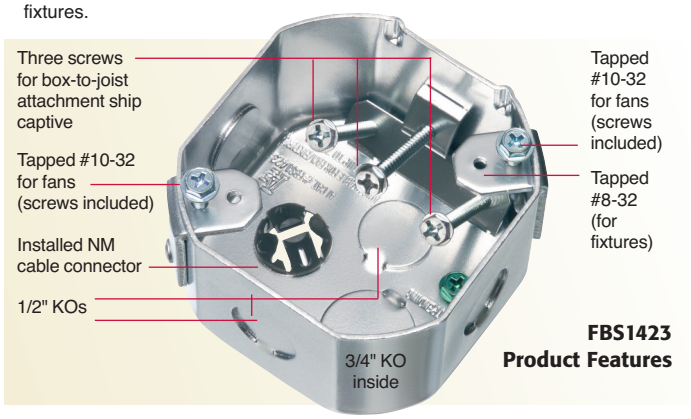

Retrofit Installation

1 Determine box location. Cut hole. Pull cable through installed NM cable connector.

2 Attach box to side of joist using the captive screws supplied for this purpose. Install fan or fixture.
