Features

- Protects children: patented shutter system helps prevent improper insertion of foreign objects.
- Meets National Electrical Code® Tamper-Resistant requirements.
- Conducts an automatic test every three seconds, ensuring it's always ready to protect. If the device fails the test, the indicator light flashes to signal that the GFCI should be replaced. - Auto-Ground Clip assures a positive ground to metal box.
- FSUL Listed (Federal Specification WC596).
- Mounting screws are shipped captive in the device and wall plate for easier installation.
- High-impact-resistant thermoplastic construction with tri-drive terminal screws.
- Trip indicator light (red LED).
- Supplied with matching TP26 nylon wall plate (except NI, DB, and G models).
- Feed-through wiring configuration allows GFCI to protect downstream receptacles.
- Prevents line-load reversal miswire: no power to the face or downstream receptacles if wired incorrectly.
- Side or internal screw-pressure-plate back wire with #10 - #14 AWG solid or stranded copper wire.
- Two back-wire holes per terminal.
- Ground screw has a back-wire clamp for easy installation.

PlugTail Features

- Faster, more reliable installation.
- No exposed terminals create a finger-safe application before, during, and after installation.
- Built-in connector features large brass terminal blades to ensure consistent, reliable electrical connections to PlugTail Connector.
- GFCI works with existing 3-wire PlugTail Connector creating a non-feed-through application for facility owners.
- Zinc-plated steel mounting strap.
